In response to the June 19, 2000 Office Action, please amend the above-identified

REISSUE application as follows:

IN THE CLAIMS:

Please cancel new claim 18.

Please amend new claim 19 as follows:

19. An embeddable mounting device comprising:

a first rectangular metal plate member having a first inner surface, a first outer surface, a first length, a first width, and a first thickness, said first metal plate member being a one-piece, unitary member;

a second rectangular metal plate member having a second inner surface, a second outer surface, a second length of a measurement equal to said first length, a second width of a measurement equal to said first width, and a second thickness, said second metal plate member being a one-piece, unitary member;
